Summer 2021– Applying for Data Science & Machine Learning Internship

EDUCATION

Columbia University, Columbia Engineering — **New York, NY**
MS in Operations Research – F-1 Visa Holder — Sep 2020 – Dec 2021
- Courses: Optimization, Stochastic Models, Statistics, Business Analytics, ML, Data Analytics.

Telecom Paris, Engineering School — **Paris Saclay, FR**
MS in Engineering – GPA: 3.8/4 (Top 5% of graduating class) — Sep 2018 – Jul 2020
- Leading French Engineering School in Computer Science and Digital Communication.
- Specialization: Data Science & Strategy, Markets, Innovation.
- Courses: Machine Learning, Deep Learning, Applied Mathematics, Linear Regression Models, Cognitive approach to NLP, Econometrics.

Sainte Geneviève College — **Versailles, FR**
Engineering Preparatory Class — Sep 2016 – Jul 2018
- Elite and intensive program for highly competitive nationwide engineering school entrance examination.
- Courses: Mathematics, Physics, Chemistry.

PROFESSIONAL EXPERIENCE

Co-Founder — **Paris, FR**
e-Wink Technology — Sep 2019 – Present
- Oversee end-to-end process including client acquisition to marketing and sales.
- Manage all facets of contract development, including analysis, negotiation, and closeout.
- Conduct Research on electronic e-Paper technology.
- Design an industrialized innovative IoT product to disrupt in-door advertising and optimize supply chain process.

Summer Camp Leader — **Mullingar, IE**
Prolingua Organization — Jul 2019 – Aug 2019
- Led a group of 20 people aged from 12 to 18 years old during language study vacation.
- Accommodated in a host family.

Private Mathematics and Physics tutor — **Paris, FR**
- Prepared 5 students from diverse backgrounds to Baccalaureate – equiv. High School Diploma and taught to undergraduate students.

PROJECT EXPERIENCE

Telecom Paris: Fusion of Algorithms for Facial Recognition - Applied Machine Learning Challenge. — Apr 2020
- Computed a best suited model for comparison of a pair of images by ensemble learning ML algorithms based on accuracy metrics.
- Implemented supervised ML algorithms, namely SVM, Neural Networks, Random Forest, Hyperparameters Improvement, Max Voting, Boosting, Bagging, Stacking, Stacked Neural Networks in Python.

Telecom Paris: Solar Energy Sharing into Clusters - Optimization and Clustering. — Jul 2019
- Investigated Paris' use of solar energy based on real consumption data sets and solar cadastre among a team of 3 students.
- Established clustering algorithms, such as K-means and swapping algorithms in Python.
- Computed an optimal clustering solution to minimize solar energy waste by 30% regarding paired consuming patterns of consumers.

Telecom Paris: Facial Recognition Innovative Project - User Interface & Integration. — Sep 2018 - Jun 2019
- Designed a User Interface of a Facial Recognition Application on Java to help novice drawers sketch portraits with 5 teammates.
- Insured integration of different coding-units in Java and Python.

ACTIVITIES

Telecom Paris Student Council — **Paris Saclay, FR**
Treasurer - Integration of International Students — Apr 2019 – Aug 2020
- Handled a budget of $170,000 by sponsoring 30 organizations, organizing university events, and insuring local premises.
- Was administration's and bankers' point of contact to negotiate contracts for partnerships.
- Defined budget for each trip – ranging up to $88K for 200 people.
- Was responsible for fundraising.

Telecom Paris Careers Fair — **Paris Saclay, FR**
Corporate Relations Officer — Sep 2018 – Aug 2019
- Prospected for five companies and was responsible for sponsorships.

SKILLS

Technical: Python, SQL, R, Java, MATLAB, C/C++.

Python Packages: NumPy, Pandas, Scikit-Learn, NLTK, Kera's, TensorFlow.

Spoken Languages: Native in French, Fluent in Spanish, Intermediate in Chinese.

Interests: Piano (for 13 years), Basketball, Kitesurfing, Debating and African culture (4 years of expatriation in Gabon).
