Summer 2021– Applying for Data Science & Machine Learning Intern position

EDUCATION

Columbia University, Columbia Engineering — **New York, NY**
MS in Operations Research – F-1 Visa Holder — Aug 2020 – Dec 2021
- Courses: Optimization, Stochastic Models, Statistics, Business Analytics, Operations Consulting, Machine Learning.

Telecom Paris, Top-Tier Engineering School — **Paris Saclay, FR**
MS in Engineering – GPA: 3.9/4 (Top 5% of graduating class) — Sep 2018 – Jul 2020
- Leading French Engineering School in Computer Science and Digital Communication.
- Specialization: Data Science & Strategy, Markets, Innovation.
- Courses: Machine Learning, Deep Learning, Linear Regression Models, Econometrics, Cognitive Approach to NLP.

Sainte Geneviève College — **Versailles, FR**
Engineering Preparatory Class — Sep 2016 – Jul 2018
- Elite and intensive program for highly competitive nationwide engineering school entrance examination.
- Courses: Applied Mathematics – Linear Algebra, Analysis, Probabilities -, Physics.

PROFESSIONAL EXPERIENCE

Co-Founder — **Paris, FR**
e-Wink Technology — Sep 2019 – Present
- Oversee end-to-end process including client acquisition to marketing and sales.
- Manage all facets of contract development, including analysis, negotiation, and closeout.
- Conduct Research on electronic e-Paper technology.
- Design an industrialized innovative IoT product to disrupt in-door advertising and optimize supply chain process.

Summer Camp Leader — **Mullingar, IE**
Prolingua Organization — Jul 2019 – Aug 2019
- Led a group of 20 people aged from 12 to 18 years old during language study vacation.
- Accommodated in a host family.

PROJECT EXPERIENCE

Text Summarization UN General Assembly Speech Statements - NLP. — Nov 2020
- Implemented combination of extractive and abstractive methods to summarize United Nations speech debates from 1970 to 2016.
- Used Text Rank and T5 transformers to build the model, and Rouge metrics to evaluate performance.

Fusion of Algorithms for Facial Recognition - Applied Machine Learning Challenge. — May 2020
- Computed a best suited model for comparison of a pair of images by ensemble learning ML algorithms based on accuracy metrics.
- Implemented supervised ML algorithms, namely SVM, Neural Networks, Random Forest, Hyperparameters Improvement, Max Voting, Boosting, Bagging, Stacking, Stacked Neural Networks in Python.

Green House Gas Emissions in Europe Project - Economics of Data. — Mar 2020
- Fetched and pre-processed data over 8 years to study socio-economical parameters having significant influence on CO_2 emissions.
- Computed OLS regressions and statistical analysis, as F-Tests, on explanatory variables.
- Analyzed country and time fixed effects to conclude main positive causal correlation between GDP and GHG emissions in Europe.

Solar Energy Sharing into Clusters - Optimization and Clustering. — Jul 2019
- Investigated Paris' use of solar energy based on real consumption data sets and solar cadastre among a team of 3 students.
- Established clustering algorithms, such as K-means and swapping algorithms in Python.
- Computed an optimal clustering solution to minimize solar energy waste by 30% regarding paired consuming patterns of consumers.

ACTIVITIES

Telecom Paris Student Council — **Paris Saclay, FR**
Treasurer - Integration of International Students — Apr 2019 – Aug 2020
- Handled a budget of $170,000 by sponsoring 30 organizations, organizing university events, and insuring local premises.
- Was administration's and bankers' point of contact to negotiate contracts for partnerships.
- Defined budget for each trip – ranging up to $88K for 200 people.
- Was responsible for fundraising.

Telecom Paris Careers Fair — **Paris Saclay, FR**
Corporate Relations Officer — Sep 2018 – Aug 2019
- Prospected for five companies and was responsible for sponsorships.

SKILLS

Technical: Python, SQL, R, MS Power BI MATLAB, Java.

Python Packages: NumPy, Pandas, Scikit-Learn, NLTK, Kera's, TensorFlow.

Spoken Languages: Native in French, Fluent in Spanish, Intermediate in Chinese.

Interests: Piano (for 13 years), Basketball, Kitesurfing, Debating and African culture (4 years of expatriation in Gabon).
